NOTES

-Guitar player runs Keyboard tracks from an iPod and has own DI box.  
 -Drummer has own small mixer and uses in ear monitors. Guitar player feeds drummer the click track and Sound engineer will give him a mix feed to the drummers mixer. The drummer can then adjust his own levels.  
 -Lead vocalist has a wireless mic but appreciated if there is an extra standard mic available as a backup.  
 -We will need A/C across the back of the stage 2plugs (guitar) 2plugs (drummer) 1plug (bass).-Guitar player will need A/C in front of stage 3 plugs
